Beginning with the September 2019 data cycle, the CRC screening indicator has been updated, including the addition of FIT. Please see the Technical Appendix for details.

A small proportion of FOBTs performed as diagnostic tests could not be excluded from the analysis.

† Data suppressed where counts are between 1 and 5; additional suppression may be applied where counts are greater than 5 to prevent residual disclosure of suppressed values; N/A: Data not available; ** Please interpret with caution, denominator ≤ 30.

For more details, refer to the Methods section.
